ADVANTAGES OF STEAM BATH

OPTIMUM SAFETY

Our devices are provided with accessories guaranteeing a safe wellness experience:

- A high-reliability temperature sensor with two differentiated captors
- An anti-burn and anti-condensation plastic steam nozzle
- An emergency stop option

GREAT COMFORT

Thanks to its silent steam diffusion, the Steam Bath makes your hammam session more relaxing.

ENERGY SAVINGS

The humidifier reduces water consumption and energy costs through a system that allows :

- To use all types of tap water with no softeners needed
- To optimize draining of hot water according to the quality of water used
- To stop hammam when it is not in use

BENEFITS OF STEAM

- **BENEFITS ON BREATHING**

Steam improves breathing by relieving the sinuses and bronchial bronchia; soothes the throat and reduces the risk of allergies.

- **SKIN BENEFITS**

Steam opens the pores of the skin, removing toxins and impurities from the inside. Its action cleanses and moisturizes, improving the quality of the skin. It also prepares the skin for exfoliation and care, and gives a natural healthy glow.

- **MUSCULAR RELAXING**

Steam bathing helps relieve muscle tension and alleviates joint pain. Steam also increases muscle flexibility, making it easier to stretch and rest after an effort. Muscles recover more efficiently and quickly.

- **CARDIOVASCULAR BENEFITS**

Steam bathing strengthens the metabolism, reduces blood pressure and also helps the body get rid of excess sodium. Combined with the cold, it increases blood circulation.

- **PSYCHOLOGICAL BENEFITS**

Steam bathing relieves stress and anxiety, promotes a sense of well-being and deep,
